TECHNICAL NOTES

Appellation: North Coast

Alcohol: 13.5% by vol.

pH: 3.85

TA: 6.2 g/L

Case production: 5,000

In the Vineyard

2010 featured a relatively cool growing season coupled with unexpected heat spikes late in the summer that resulted in a delayed and shortened harvest with lower yields. The grapes displayed concentrated flavors that proved to materialize into elegant, structured wines, almost European in style. This Cabernet Sauvignon is no exception to this memorable vintage.

Conversations with the Winemakers

Raymond Vineyard's Sommelier Selection Cabernet Sauvignon was crafted by a group of influential sommeliers at the finest restaurants and inspired by the rich history of our world renowned winegrowing region.

We used Cabernet grapes from three unique appellations, resulting in a fun and diverse wine made to enjoy. The blend is comprised of fruit from the Napa Valley, Sonoma County, and Lake County. Napa Valley is the backbone of the blend, with its terroir providing the fullest expression of black fruits and integrated tannins; Sonoma County's fog influence produces grapes that give the wine structure, balance and acidity; Lake County's growing season is short, making for red, jammy wines that are easy to enjoy.

Wine Profile

The 2010 Sommelier Selection Cabernet Sauvignon is a full-bodied elegant wine brimming with rich blackberry, cherry and cassis flavors. The wine was crafted in a style that makes it the perfect pairing with a wide range of cuisine. Soft and round on the palate, the wine displays a nice structure and perfect balance.
