Sauvignon Blanc

California 2024

ABOUT THE VINTAGE

The 2024 growing season in Lodi and Clarksburg delivered ideal conditions for Sauvignon Blanc, resulting in a vintage marked by freshness, precision, and expressive character. A dry but balanced winter gave way to a warm, steady spring, encouraging even budbreak and a consistent bloom. Both regions benefited from classic Delta breezes and cool nighttime temperatures throughout the summer, which helped retain natural acidity and slow sugar accumulation. In Clarksburg, the influence of the Sacramento River delta maintained a cooler microclimate, enhancing aromatic lift and minerality, while Lodi's well-drained soils and sunny days contributed ripe citrus and tropical fruit notes. Harvest began in late August under stable, mild conditions, allowing growers to pick at optimal ripeness. The resulting wines show bright energy, layered fruit, and a signature crisp finish—hallmarks of a standout Sauvignon Blanc vintage.

CONVERSATIONS WITH THE WINEMAKER

The Sauvignon Blanc grapes were sourced from select vineyards in Lodi and Clarksburg. In southern Lodi, cooler temperatures influenced by the nearby Mokelumne River contribute to vibrant acidity and fresh aromatics. Clarksburg's vineyards, many situated at or below sea level in the Sacramento River Delta, benefit from cool morning fog and breezes that help preserve delicate fruit character. After harvest, the grapes were fermented in temperature-controlled stainless steel tanks to retain purity of flavor and crisp varietal expression.

WINE PROFILE

This 2024 Sauvignon Blanc bursts with bright aromas of citrus zest, juicy pineapple, and white peach. On the palate, it offers a refreshing medley of green apple, lime, and sweet honeydew, lifted by a lively acidity that keeps the wine crisp and engaging. A subtle thread of minerality carries through the finish, adding depth and structure. Playful yet refined, this Sauvignon Blanc captures the vibrant energy of the vintage with a clean, fruit-driven profile that's expressive.

TECHNICAL NOTES

APPELLATION: California

VARIETAL: 100% Sauvignon Blanc

ALCOHOL: 13.5% by vol.

PH: 3.41 g/L

TA: 5.1

Gluten Free
